HALO® RL Night Light Direct Mount

Don't Be Left in the Dark!

HALO is pleased to announce our first ever night light! The HALO RL Night Light Direct Mount features two modes: downlight mode for general area illumination and night light mode for a gentle glow illuminating the acrylic trim. Simply toggle your light switch to change modes.

The RL Night Light is available in 4" and 6" aperture sizes. The downlight mode features 5-color selectable CCT ranging from 2700K warm light to 5000K cool light, while the night light mode offers a warm 2000K glow. This canless direct mount downlight does not require a housing for installation. The slim design fits in 2x4 construction or ultra-shallow plenum spaces. The smooth lens and even glow make this the perfect solution in a multitude of residential applications including children's rooms, bathrooms, hallways, or any space you may need a night light.

Features at a Glance
